

WORK HARD. WORK COMFORTABLY.

# NEXUS

ELEVATING OPERATOR HEALTH  
AND COMFORT

# NEXUS

## INNOVATIVE. MODERN. ADAPTIVE.

Nexus seat tops not only look **ULTRA MODERN**, they perform at an ultra modern level. We've packed highly tested, highly touted innovation into every square inch. Ergonomic cushions are engineered to enable long **WORKDAY COMFORT** for a wide range of body types. Features include a waterfall front edge, custom-contoured bolsters and thicker foam in pressure sensitive areas, all to **REDUCE FATIGUE**.

## TOP BENEFITS

### MODERN

Ultra Modern Styling  
for contemporary look

### ERGONOMIC

control layout

### COMFORT

Optimal Cushion Comfort

#### Optimal Cushion Comfort

- Engineered to enable long work day comfort for a wide range of body types.
- Waterfall front edge for less leg pressure and fatigue.
- Thicker custom contoured foam in pressure sensitive areas to reduce fatigue.

#### Additional Comfort Features

- Adjustable bolsters enhance lateral support and lessen fatigue factors.
- Dual air lumbar for greater back support and Operator Comfort.
- Cushion Climate System
  - Active system offers forced cool or warm air for long-term comfort in temperature extremes.
  - Passive system pulls air and moisture away from the operator and can be coupled with heated cushions for seat comfort in a variety of conditions.

# LS SEAT TOP

The LS model enhances the driver experience to the fullest. It comes standard with dual chamber air lumbar, seat cushion tilt/extension, adjustable bolsters, active cushion climate system and more. Additional options elevate the experience.

# ES SEAT TOP

The ES Model offers excellent flexibility with options including seat tilt/extension and heated cushions.

# GS SEAT TOP

Our Standard GS Seat Top is anything but standard. As with all of our models, the GS comes with many great options: Low or high seat back and multi-point adjustable mechanical lumbar.
